# Spain's New Solar & Energy Storage Industry Event

May 10-11, 2023

World Trade Center, Barcelona

**SOLAR+** ESPAÑA  
**STORAGE**

in partnership with  
**pV magazine**

## Solar + Storage in Spain

Solar is increasingly become a dominant source of energy for Spain. In 2021, Solar photovoltaic was the technology that grew the most, closing the year with a growth of 36.7 percent and registering its annual all-time high in terms of production and contribution to the country's generation mix\*.

The Spanish solar market has been driven mainly by large utility-scale and C&I projects, but residential rooftop installations have also begun to grow strongly thanks to incentives for homeowners introduced by the Spanish government.

Demand for energy storage solutions is also booming and becoming more widely implemented.

## What to expect

Solar & Storage España is the only exhibition and conference dedicated to the growing Spanish and Iberian solar and energy storage markets. The two-day event will feature exhibition, conference, workshops, as well as unique networking opportunities

- Seamless exhibition set-up and show execution
- World class Spanish conference with high level discussions from key-stakeholders
- Skills development via workshops and seminars
- Unforgettable networking events and opportunities
- Global outreach through the extensive international network of pv magazine and RE+ Events as well as local expertise via pv magazine España

## Why Exhibit?

Solar & Storage España offers exhibitors an efficient and sustainable platform to grow their client base by meeting new and existing clients, and networking with peers from the industry.

- Showcase your brand as being at the forefront of a rapidly growing market
- Reach an audience of decision-makers from all segments of the solar and storage industries
- Conduct meetings with current clients and seek out new business partnerships
- Generate new sales leads from local and international decision makers
- Build and strengthen your business relationships with current and future customers
- Promote your products to a professional, focused and selected audience

## The Location

Created by the renowned architect Henry N. Cobb and inspired by the shape of a ship, **World Trade Center (WTC) Barcelona** is a unique building and an emblem of the city of Barcelona.

WTC Barcelona is the perfect setting for conferences, conventions and business meetings. One of the advantages WTC Barcelona has, is its multiple transport links to everywhere in the city as well as being just a 30-minute ride from the airport. It is also easy to reach by car offering lots of parking capacity.

## Who should Exhibit?

- Turnkey suppliers, developers and consulting engineers
  - Photovoltaic (PV)
  - Concentrating Solar Power (CSP)
  - Solar thermal and water heating
  - Mounting and racking solutions
  - Distributors and resellers
  - Financial services, law firms and advisory
  - Inverters
  - Operation and maintenance
  - EPC contractors
  - PV components
  - Engineering services/developments
  - Electrical Engineering components such as switchgears, transformers, cables etc.
  - Consulting
  - Research and development
  - Test and inspection institutes
  - Certification
  - Government initiatives and agencies
  - Trade media, publishing houses
  - Education and training
  - Financial services, promotion
  - Associations
- Lithium-based batteries
  - Lead-based batteries
  - Redox Flow Batteries
  - Fuel Cells
  - (Ultra)Capacitors
  - Power-to-gas (hydrogen, electrolysis, methanation, infrastructure, etc.)
  - Battery management systems
  - Power electronics for storage systems
  - Battery testing, inspection systems, safety
  - Battery chargers
  - Energy storage systems
  - Stationary residential applications
  - Stationary commercial and industrial applications
  - Stationary applications for utilities and grid operators
  - Uninterruptible power supply (UPS)
  - EPC contracting/project development for energy storage systems
  - ICT, software for energy storage systems

## Who will you meet?

- Consulting services
- Energy storage professionals
- EPC contractors
- Government
- Investors
- IPP (Independent Power Producers)
- Law / Legal services
- Manufacturers
- Media
- Project developers
- Solar distributors
- Solar farm owners
- Solar integrators
- Solar suppliers
- Utility services

## Conference and Workshops

The Solar & Storage España conference program, developed and curated by **pV magazine**, will provide insight into trends and analysis on the strategic developments in the Spanish and Iberian renewable energy markets.

In addition to this, attendees can further their education with in-depth workshops and trainings to be offered.

## About the Organizers

RE+ Events is a global event management organization with a focus on the clean energy industry. Our flagship event, RE+ (formerly Solar Power International - SPI), is largest renewable energy event in North America. The RE+ Events portfolio also includes regional events within the United States focusing on trends and policies in specific states or regions, as well as international events that bring together clean energy leaders in up-and-coming markets across the world. RE+ Events is co-owned by the Smart Electric Power Alliance and the Solar Energy Industries Association.

pv magazine is a monthly trade publication launched for the international photovoltaics (PV) community in the summer of 2008. The current print run, based on qualified circulation, is 35,000. The international website, [www.pv-magazine.com](http://www.pv-magazine.com) launched in 2010. Regional news websites include: pv magazine Australia, pv magazine China, pv magazine France, pv magazine Germany, pv magazine India, pv magazine Latin America, pv magazine Mexico, pv magazine Spain and pv magazine USA. With its independent, technology-focused reporting, pv magazine concentrates on covering the latest solar PV news, topical technological trends, and worldwide market developments.
